-  **Seamlessly control the user experience.**

-  Provide detailed information on topics of need or interest without the limitations on space or cost imposed by printed materials.

-  **Push additions and updates to stakeholders at the speed of light, not the speed of snail mail.**

-  Track the effectiveness of your efforts – With Buxus[™], collecting and analyzing data has never been simpler.

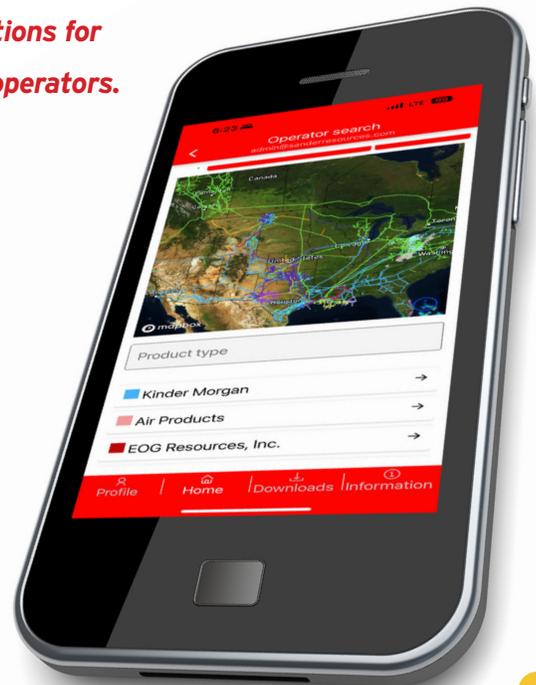

-  **Save time, money, and resources by allowing technology to do the work for you.**

-  **Slash your environmental footprint by reducing the amount of paper sent each year.**

Communicating with key stakeholders has never been so easy and effective. With Buxus[™] operators can now provide tailored messaging to every stakeholder group based on need, location, and operational conditions.

Stakeholder engagement is critical and Buxus[™] is expanding to meet this need. Using the same handheld devices that are now a common part of everyday life, Buxus[™] provides information, resources, and a mechanism for stakeholders to not only connect, but give feedback at the touch of a button.

Buxus[™] is Free for stakeholders, subscriptions for pipeline operators.
